

SEPTEMBER / OCTOBER 2014 MINISTRY REPORT

SEPTEMBER / OCTOBER 2014 MINISTRY REPORT

Our Gospel Elders are here once again to share with you what God is leading them to do for His Kingdom. On 5th September 2014, God led us to Ling'awa village in Chikwawa district,

In southern Malawi, where we preached to a crowd of people. Many people raised up their hands to receive Jesus Christ and I prayed with them. Six people out of many that received Jesus Christ have joined our Church there. We also prayed for a very sick child and within an hour the child recovered, he became completely healed. From 17th October to 19th October 2014 we visited the area once again as a follow-up visitation. While we were there we visited two more villages, preaching the gospel and distributing gospel tracts. The first village we visited was Chalemera village, Tribal Area (T/A) Ndakwera. We harvested 31 people for Christ, this was on 17th October, 2014. The second village was Chimbidzi village, on 18th October 2014; we harvested 36 people for the lord. See the photo below:

Chalemera village

On 18th October 2014 early in the morning we went to the

mountain for prayers, a journey of one hour and thirty minutes, we went to pray for these villages, after our research of the area we found out that this area is the darkest part of the district, even witchdoctors are afraid of visiting this area for very wicked people live there. This is the mountain where we conducted our prayers- photo below:

The mountain where we conducted our prayers

Below is the photo of the shelter we were spending the night we were visited by the snake 18th October evening time, fortunately we killed . It is not easy to sleep at a place like this. We praise God for His protection. Next month we are visiting another area. Please keep on praying for us and supporting us in any way God leads you to.

Counselling and praying for the sick in the evening.

I am your fellow servant of God. PASTOR T.J. MAPIRA
